Overview of Map Pages and Zoning Codes

Detail Pages are not available for all areas. They are only created when an area requires more detail than what is shown on the Half Township Pages.

(Typical Township Layout)

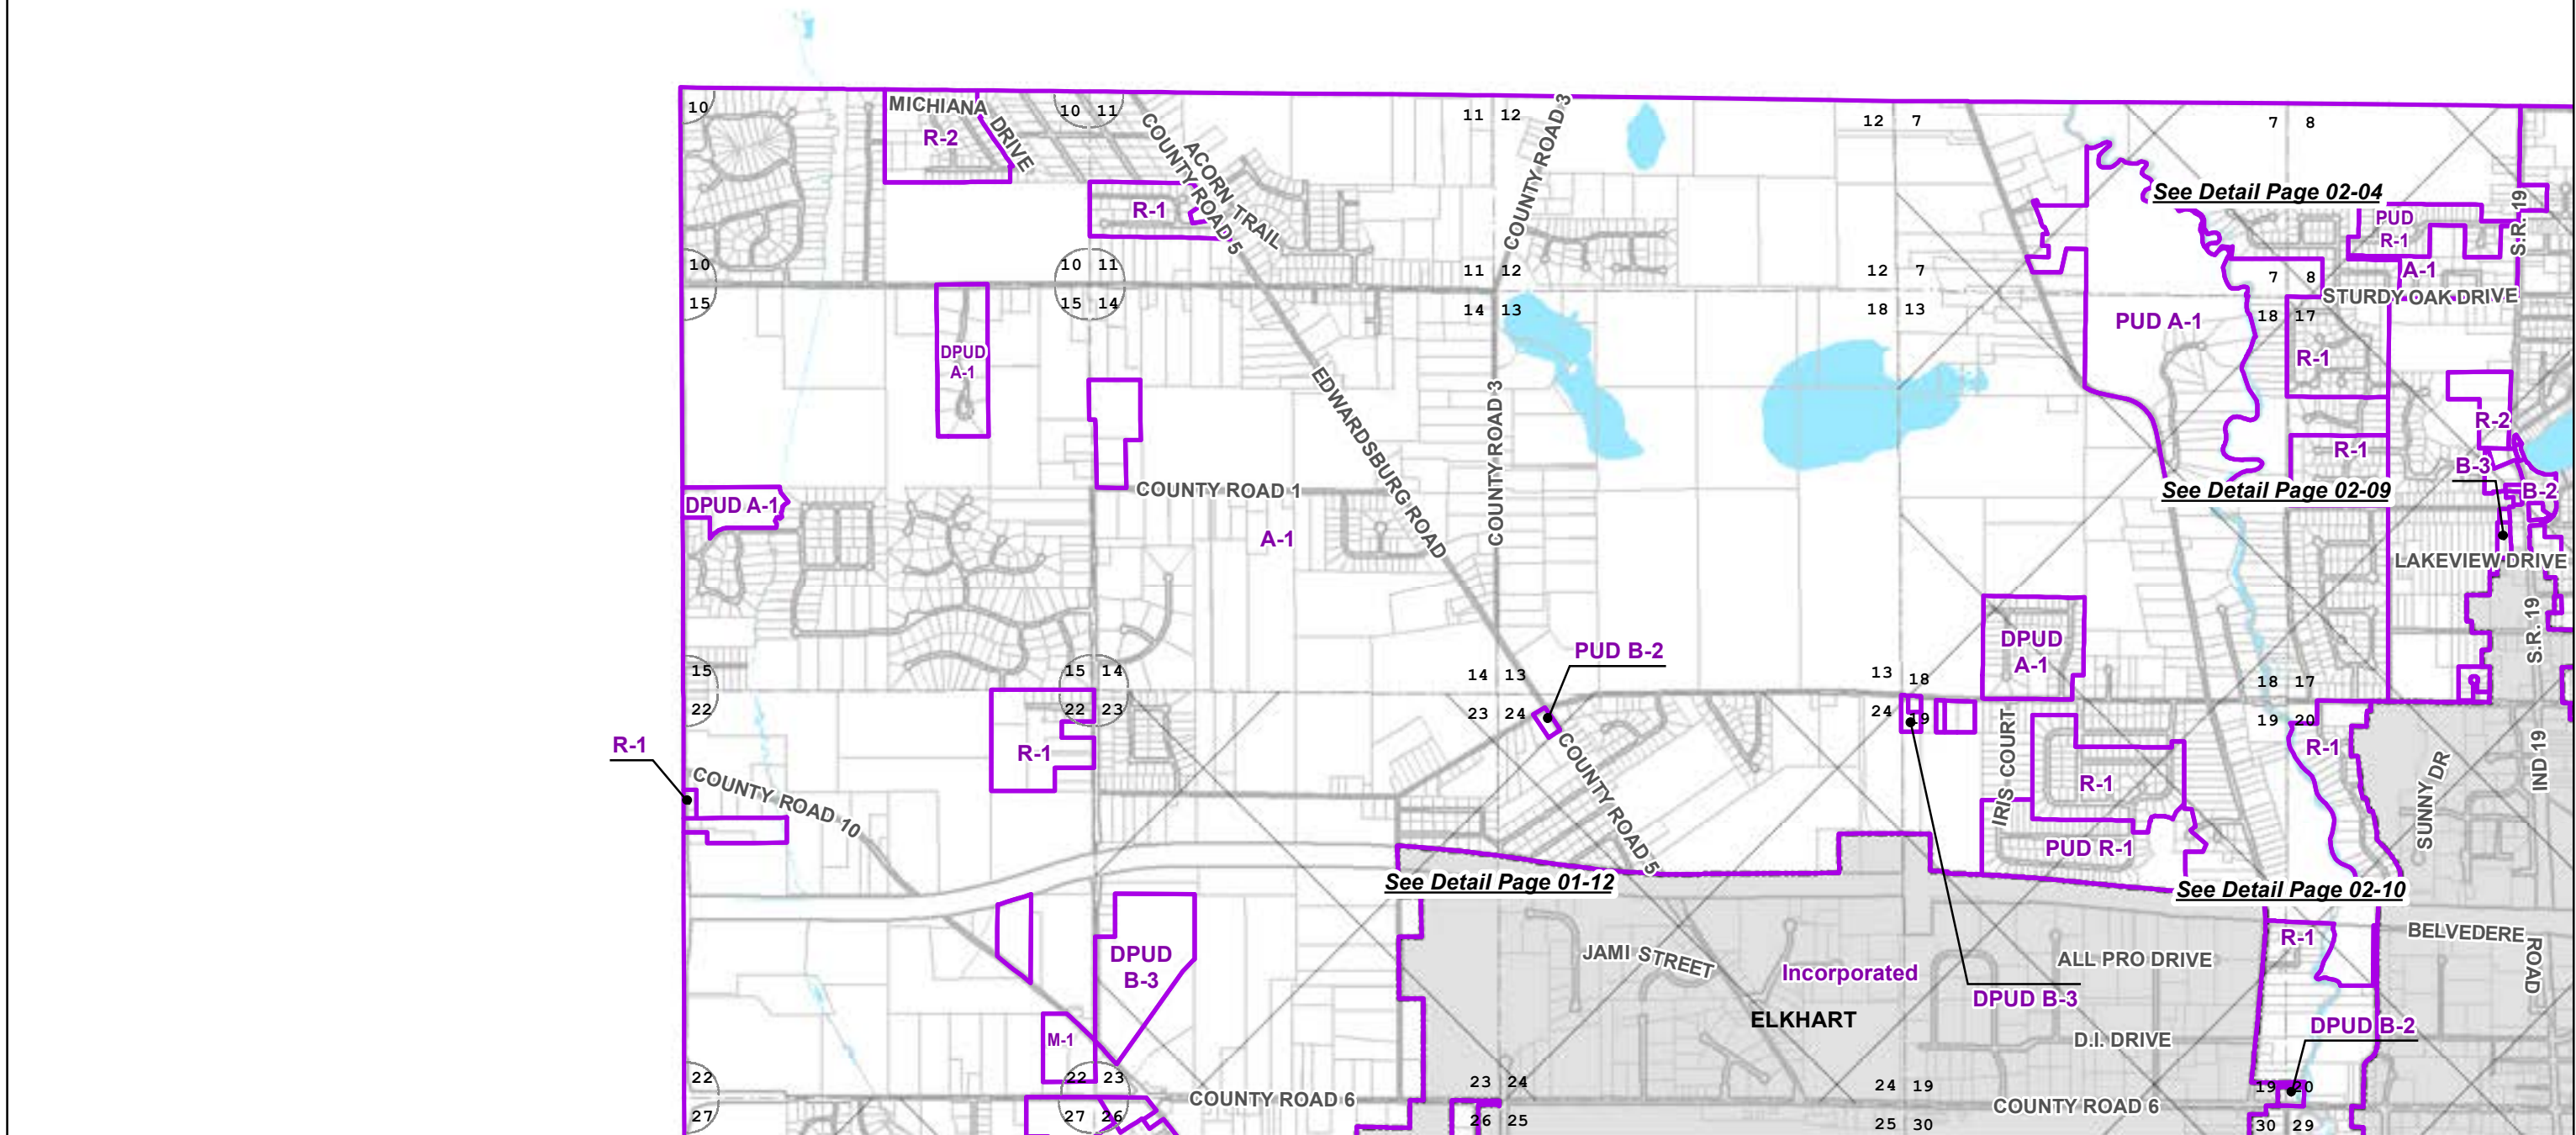

Divide the PLSS section number by 2 (round up) to determine the section's detail page number.
For example section 12 in Middlebury Township (group 08) look for page 08-06.

The first 2 digits of a page number represent the township, based on the group numbers listed above.

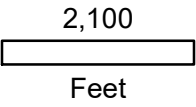

Detail Page Number System

Group #	Township Name
